

Surgical booking

Last Modified on 07/10/2024 1:38 pm AEDT

Book an appointment for a surgical procedure. This includes setting up the Operations List - a report that provides information about the operation for the hospital and surgeon. We will also look at how to check all surgical procedures.

Before you can book a surgical procedure, the Appointment Type and Operations List must be set up in Zedmed. To learn more, see the [Create Appointment Type article](#).

Book a surgical procedure

To book a surgical procedure:

1. Go to Zedmed's **Reception** tab.
2. Select **Appointments**.

The **Appointments Display Grid** screen will open. If the screen was already open, select **Refresh**.

3. Right-click the appointment's time slot and select **Add (Patient)**.

The **Patient Search** screen will open.

4. Search for the patient and select them.

The **Appointment Details** screen will open.

To learn about searching, see the [Find a patient's record article](#).

5. Fill in the relevant appointment details:

- In the **Type** field, select **Surgical Procedure**.

The **Create** and **Select** buttons will appear.

- Enter a **Duration** for the operation. The **End Time** will be updated.
- Use the **Notes** section to record information relevant to the booking.
- Any **Referrals** will appear on the right side.
- The space by **Alerts** shows information from the Alerts section of the patient's record. For example, it could note that the patient needs to pay in advance or that they have missed past appointments.
- The operator's code and booking time are recorded and shown on the **Booking** screen.

6. Select **Create**.

The screenshot displays the 'Appointments Display Grid' application. The main window shows a grid of appointments for Friday, 23/07/2021, with columns for different staff members: Hatcher, Danni; HEDRICK, WARREN; Davis, Phillip; Smith, John; and Nurse. A modal window titled 'Appointment Details' is open over the grid. The modal contains the following information:

- Date: Friday, 23 July 2021
- Doctor: WARREN HEDRICK
- Resource: WARREN HEDRICK
- Start Time: 11:30
- End Time: 12:30
- Duration: 01:00
- Status: Current
- Type: Surgical Procedure
- Patient: Hollaway, Knut
- File No: 4
- DOB: 19/05/1995
- Address: 5 Jacob Pl, BUGLE RANGES 5251
- Referral: To Dr Phillip Davis, By Dr Pete Steven, On 12/07/2021 for 999 months
- Alerts: test

The modal also includes a 'Create' button, a 'Notes' field, and a table of account payers:

Account Payer	Code	Amount
Hollaway, Knut	P1	\$2,073.25
Medicare	MC	\$326.65
Springs	MC	\$.00
Church, Lawrence	P1	\$.00

The **Add Surgical Procedure** screen will open.

The tabs on this screen are used to select items for the Operations List, a report that provides information about the procedure for the hospital and the surgeon.

7. Select the **Checklist** tab:
 - Select the items you want to be included in the Operations List.
8. Select the **Patient Details** tab:
 - The patient's information is taken from the patient's record.
 - To populate the **Account Payer Information** section, you need to create a quote, as shown in step 12.
9. Select the **Procedure** tab:
 - For **Type**, select the surgical procedure.
 - Fill in any fields relevant to the procedure.
 - Under **Instruments**, select each item then the + icon to include that item in the Operations List.

To learn about setting up types and instruments, see the [Set up a surgical Appointment Type](#) article.
10. Select the **Notes** tab:
 - Enter anything you want to be added to the Operations List.
11. Select the **Surgery Details** tab:
 - Use the **Anesthetist, Referral Doctor and Assistant Physician** fields to make selections relevant to the procedure. The names come from the address book.
 - Select the hospital.
 - Review and fill in the admission and surgery fields.
12. Select **Services**:
 - a. Select **Add from New Quote**.

The **Quotation** screen will open. Fill in the **Services** section.

- b. In the **Date** field, select the surgery date.
- c. In the **Item** field, enter the procedure's item code.
- d. Press **Tab**.
- e. If you're charging a health fund, select the patient's fund in the **Fee** field.
- f. Select **Properties**, select the **Hospital/Site**, then select **OK**.

Check that the hospital now shows in the **Notes** field for the service.

- g. Select **Suppress**.

13. Select **Yes** to confirm.

The screenshot shows the 'Quotation' window with the following details:

- Invoice:** Patient: Mr Knut Holloway, File 4, DOB 19/05/1995 (26), DVA, HCC#, Safety, Pens. Status None.
- Payer:** Holloway, Knut, Add/Edit Payer, Applicable Fee Type P1.
- Doctor:** HEDRICK, WARREN, A.
- Request/Referral Dr:** Dr Pete Steven, PD, 12/07/2021, Indef.
- Payer Debts:**

	Patient	Family	Credit
Due	2073.25	2073.25	0.00
Deferred	0.00	0.00	
- Fund Details:** Fund BUPA, # 12345678, Fund Fee Type IF7.
- Refund/Gap Calculation:** Fund, Medicare (selected), Invoice Style: Print Gap, Corporate.
- Services Table:**

Date	Item#	Description	Fee	Tax	Unit Value	Qty	Amount	Notes	Estim. Refund	Gap
28/07/2021	52440	Cleft lip, unilateral - primary repair,	P1	FRE	576.35	1	576.35		478.80	97.55
- Buttons:** Assist Fee, Properties, Add, Change, Delete, Total: 0.00, Disc.: 0.00, Gap: 0.00.
- Bottom Buttons:** Combo Inv., Print, Email, Suppress, Cancel, Help.

You will return to the **Add Surgical Procedure** screen.

The **Services** tab will now show the quote, and the **Patient Details** tab will show the **Account Payer Information**.

14. Select **Close** to save and Exit.
15. Select **Close** on the **Appointment Details** screen.

The Surgical Procedure List

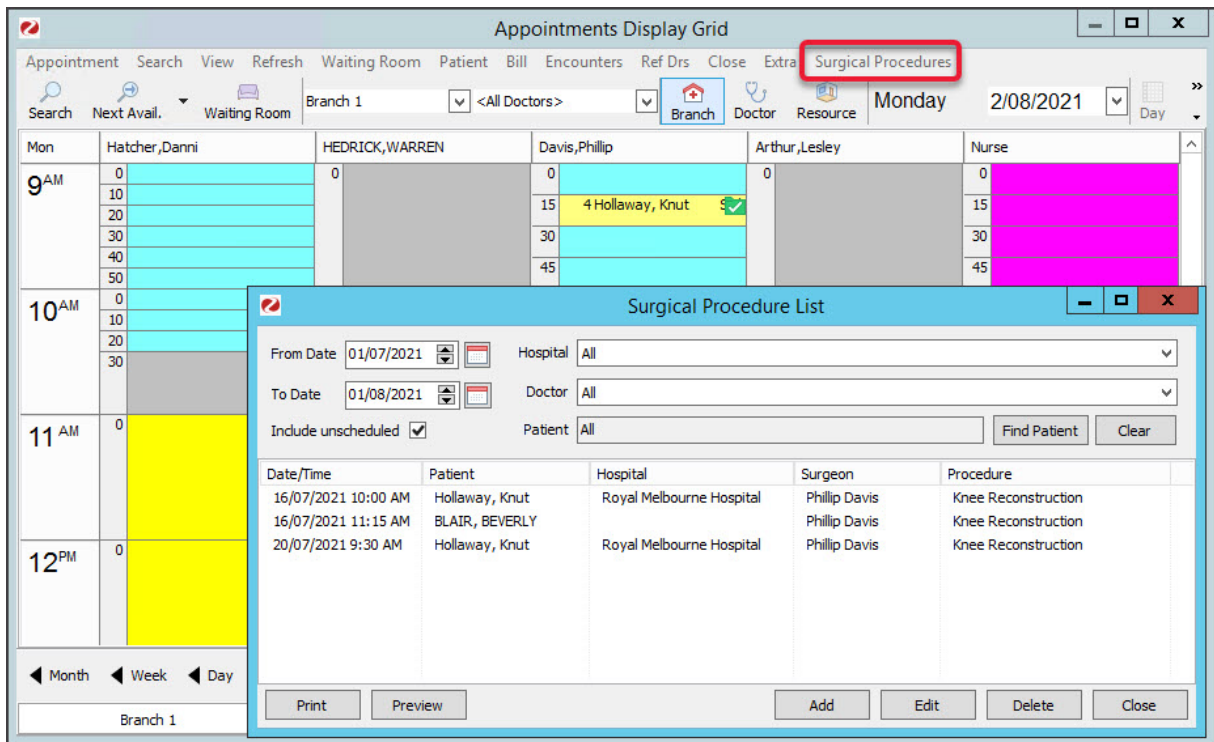

Zedmed allows you to view and manage all surgical bookings using the **Surgical Procedure List**. This screen makes it easy to look up surgeries, view and print an appointment's Operations List and create quotes.

To open the Surgical Procedure List:

1. Go to Zedmed's **Reception** tab.
2. Select **Appointments**.

The **Appointments Display Grid** screen will open. If the screen was already open, select **Refresh**.

3. On the top menu, select **Surgical Procedures**.

Surgical Procedure List activities

You can use the Surgical Procedure list to:

1. **Filter the results** - by changing the **From Date** and **To Date** range and using the **Hospital**, **Doctor** and **Patient** fields.
2. **View an Operations List** - by selecting a patient then **Screen**. The report has **Print** and **Export to PDF** menu options.
3. **Print an Operations List** - by selecting an appointment then **Print**.
4. **Open the Surgical Procedure screen** - by selecting an appointment then selecting **Edit**.
5. **Add a quote for a procedure** - by selecting a patient and selecting **Edit** > **Services** tab > **Add for New Quote**.
6. **Add a new Operations list** - by selecting **Add**. We recommend adding an Operations List when **booking the appointment**.

The Operations List

Provides information about the operation for the surgeon. The information can include the surgical instruments required and the patient's approvals. The list is sent to the hospital so the staff there has all the information they need about a booking.

The Operation List is an option for all appointments created using the **Surgical Procedure - Appointment Type**. You can select what to include using the **Add Surgical Procedure** screen, which opens when you select **Create** on the **Appointment Details** screen. This process is explained in the **first section of this article**.

To print out the Operations List

1. Open the **Appointment Book**.
2. Select **Surgical Procedures** from the top menu.
3. Select the applicable date range.
4. Select the patient/procedure from the list.

5. Select Print or Preview to open the list, then select Print.
