

Clinical reports menu

Last Modified on 30/09/2024 3:10 pm AEST

Generate, view and save reports for Zedmed's clinical modules, including the Problems, Immunisations, Drugs, Scripts, Referrals, Allergies and Pregnancy modules.

To run a clinical report:

- 1. Go to Zedmed's **Reception** tab.
- 2. Select Clinical Records.

The Clinical Records screen will open.

You do not need to open a patient or start an encounter to run a clinical report.

- 3. Select **Reports** from the menu.
- 4. Select the report you want to run.

A configuration screen will open for the selected report.

The options will vary for each clinical module. The example below shows the Patients Immunisation Report screen.

5. Select the settings to create the required report.

	Patients Immunisation Report X
Style	Patient Criteria
 Single line details Extended Details Show Patient Details CSV File 	Type All V Status All V Age 0 To 0 To Enabled Gender All V
Data Group By None ✓ Order By Family Name ✓ New page on Group By change ☑	Immunisation Search Criteria Vaccinator All Type name All Immunisation Date 30/07/2021 To 28/10/2021 Enabled Batch Number All
Print Screen	Cancel

6. Select **Screen** to generate and open the report.

The report will open in a viewer. The example below shows the Script Report.

Selecting **Print** will print out the report without opening it first.

To save the report, select **File** > **Save As** and save the report to your chosen location.

7. Select **Exit** to close the report.
