

# First time login 2FA setup

Version: 5.01 | Last Modified on 19/06/2026 11:06 am AEST

This guide explains how to access Zedmed Cloud, set up DUO authentication and log into your Zedmed server.

If you are a new Zedmed user, you will receive an email with a 1Password link to your Zedmed credentials. This link is required to set up your secure login, and it will only work for **1 week from the day** it was created.

## Your Cloud and Zedmed logins

You will first log into the cloud with your Zedmed Cloud email address and password, which use DUO 2FA. Once you are on the Cloud Portal, you will log into the Zedmed Server using your Zedmed Username and Password. DUO is an app that's installed on your mobile phone and prompts you to confirm it is you logging in.

The minimum password length is 12 characters.

### You will require:

- A mobile phone (iPhone iOS 15.0 or Android 11.0 and greater).
- An email with a 1Password link.
- Access to Google Chrome (recommended), Apple Safari and Mozilla Firefox.

### Inactivity/timeout

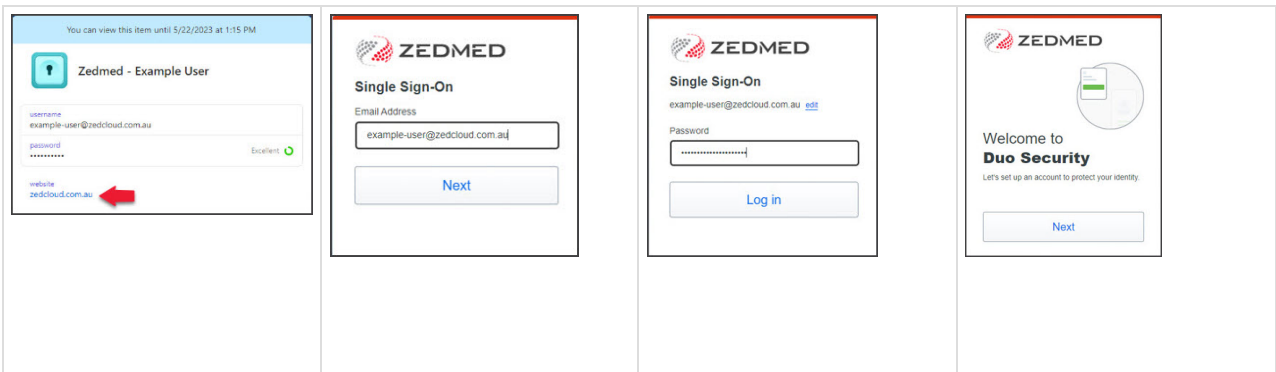

If a Zedmed Cloud session remains inactive for 90 minutes, it will expire, and a 'session has ended' page will display. Select your Zedmed Cloud shortcut and log back in to create a new session.

---

## Step 1 - Open Zedmed Cloud

For the steps below, use the mouse-over copy icon in 1Password to add your credentials to the fields provided.

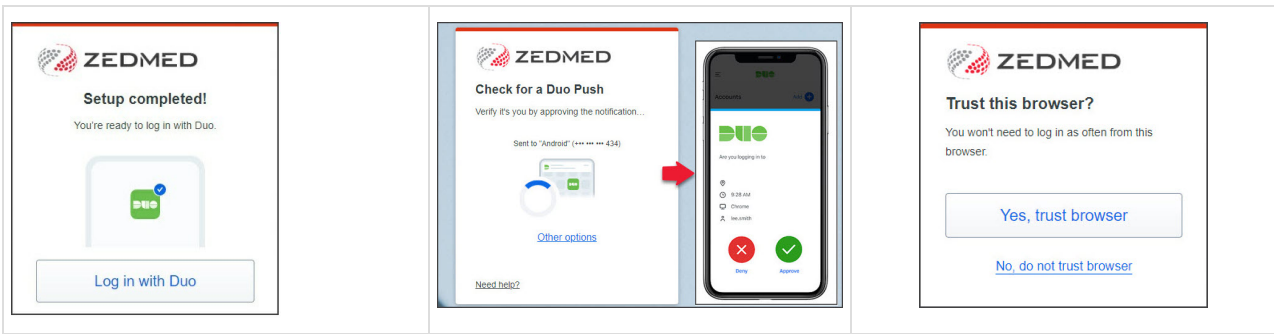

<b>A) Open 1Password</b> Click the link to open 1Password, then open the link to: <a href="https://zedcloud.com.au">zedcloud.com.au</a> .	<b>B) Enter username</b> Enter your Zedmed Cloud Email Address. E.g 42 550 5050</p>	<p><b>C) Confirm phone number</b>          Check the number displayed.          Select <b>Yes, it's correct</b>.</p>
		
<p><b>D) Open app store</b>          The <b>Download DUO Mobile</b> dialog opens with the DUO app links. Do <b>NOT</b> select Next.</p>	<p><b>E) Install DUO app</b>  <b>From your phone:</b> Install DUO Mobile app using the instructions below. Select <b>Next</b>. (on in step D)</p>	<p><b>F) Scan QR code</b>          Use the QR code on screen to add Zedmed to the DUO Mobile app.</p>
	<p>1) Open the <b>AppStore</b> or <b>Google Play</b>.          2) Find <b>Duo Mobile</b>.          3) <b>Install</b> DUO Mobile app then open it.</p> 	<p>1) Open DUO and select <b>+ Add</b>.          2) Select <b>Use QR code</b> and scan the QR code on the screen.          3) Select <b>Save</b> to add Zedmed.</p> 
<p><b>G) Login using DUO</b>          This prompt opens when you scan the code. Select <b>Log in with Duo</b>.</p>	<p><b>H) Verify with DUO</b>          A DUO notification will open on your phone. Tap <b>Approve</b>.</p>	<p><b>I) Trust browser</b>          Select <b>Yes, trust browser</b>.          The Zedmed Cloud portal will open.</p>

## Step 3 - Log into Zedmed

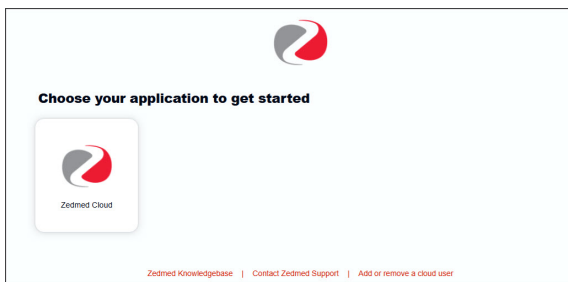

When the Zedmed Cloud homepage opens, it will show our Zedmed environments.

The login process will depend on your configuration.

The link to your Zedmed Cloud password expires in 7 days, so it's important to remember it.

Select the **Password Management** tile and follow the [change password guide](#) if you want to set your password.

1. Save the website to your browser's favourites/bookmarks.
2. Select your **Zedmed** server.

Zedmed will start creating your session and preparing the application.

3. Follow the login prompts
4. When Zedmed opens, select **Allow** if prompted to allow clipboard functionality.
