# Logging in with new SSO

Version: 1.02 | Last Modified on 04/05/2026 11:59 am AEST

Zedmed v39 introduces a new single sign-on experience, where you only need to log into your Zedmed server once. After that, you will only need to log into Zedmed Cloud - your Zedmed server will automatically open without any prompts.

**This guide is for Zedmed Cloud customers who use the URL  signin.zedcloud.com.au/login**

**Printable PDF to give to users SSO-quickstart.pdf** 📎

In each step, when asked for a username, it is the one by zedmed with the format '<your name>@zedcloud.com.au'
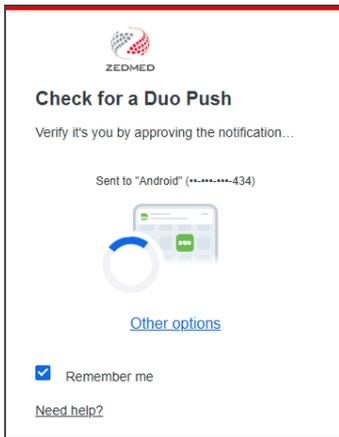

1. Log in to **signin.zedcloud.com.au/login**
2. Enter your Zedcloud email address: '<your name>@zedcloud.com.au'
3. Select **Continue**.

4. Enter your password and select **Log in**.

5. Respond to the Duo notification on your phone.

**The Zedmed Cloud landing page will open.**

6. Select your Zedmed instance.

   Customers using Zedmed's implementation of DUO SSO will also see a Change Password option.

**The following steps are only required the first time you log in.**

After that, selecting the Zedmed icon from the landing page (screenshot above) will automatically log you into Zedmed.

Following from step 6:
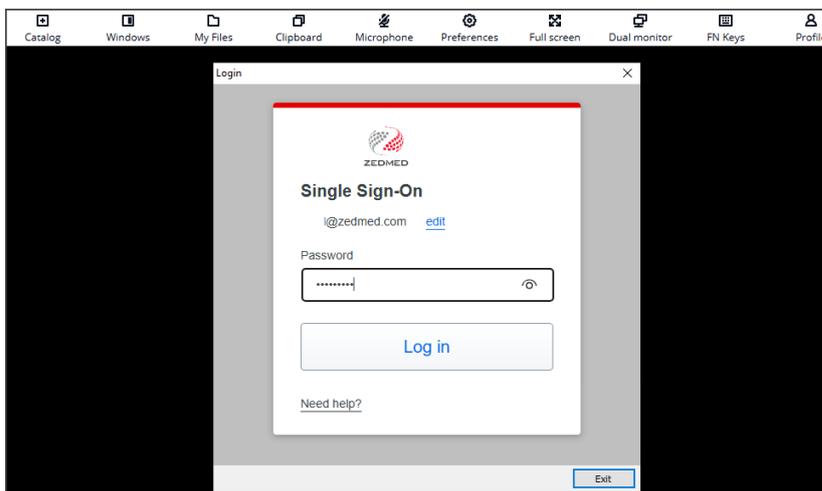

1. Enter your Zedcloud email address: '<your name>@zedcloud.com.au'.
2. Select **Sign in**.

3. Enter your Zedcloud email address: '<your name>@zedcloud.com.au'.
4. Select **Next.**

5. Enter your Zedcloud password.
6. Select **Log in**.

**Zedmed Office will open.**
