

Create desktop shortcut

Version: 1.00 | Last Modified on 25/05/2026 10:59 am AEST

Zedmed Cloud is opened in your web browser, and a bookmark or desktop shortcut should be created for easy access. These instructions use Google Chrome and will be similar to the steps used for other web browsers.

Option 1 - Create a bookmark

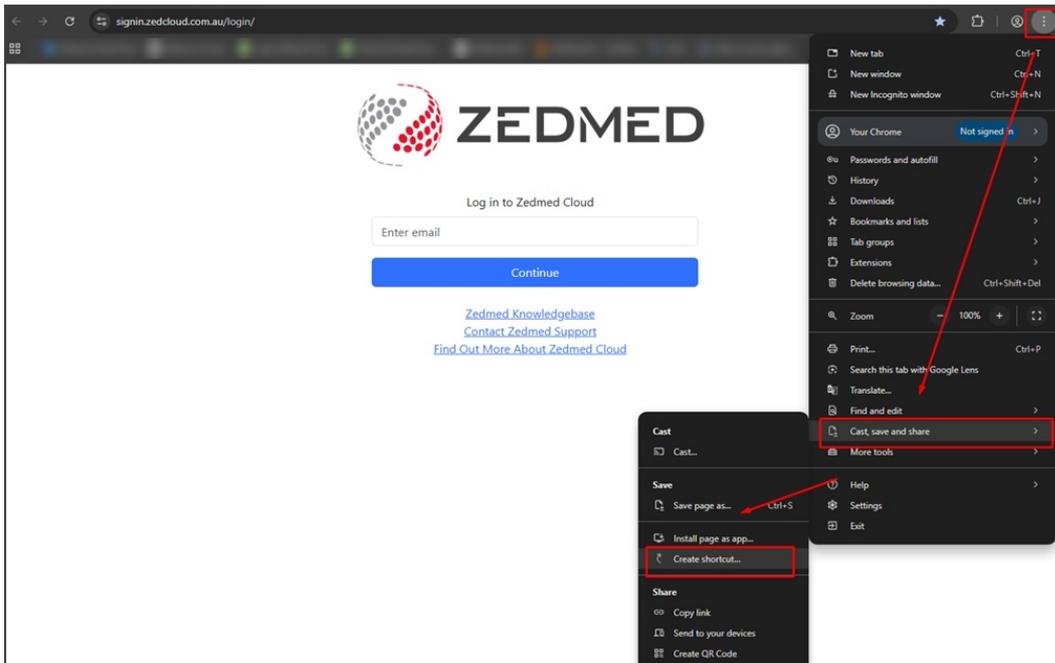

Bookmark Zedmed Cloud so you can open it from your Favourites.

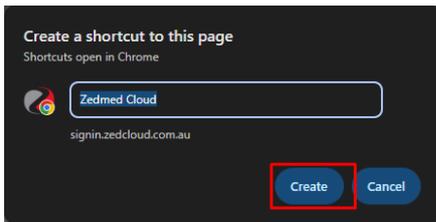

Option 2 - Add a desktop shortcut:

To save a shortcut on your device desktop:

1. Navigate to Zedmed.
For example - <https://signin.zedcloud.com.au/login>
2. Select 3 dots/Hamburger Menu.
3. Select **Cast, Save and Share**.
4. Select **Create shortcut...**
5. Select **Create**, and a shortcut will be added to your desktop.

6. Give the shortcut a name when prompted.

And it will be saved to your desktop
